

## KSDK Family Day

by : Amir Shah Azizan bin Abdullah

Kelab Sukan & Kebajikan (KSDK) of Institut Latihan Perindustrian Mersing organised a Family Day together with Hari Raya Celebration on 5 to 6 May 2023 at Lotus Seaview Beach Resort in Pengerang. For two days, nearly 150 members and families, gathered. On the first day, registration began at 2.00 p.m., the first activity was telematch for the kids. The major event of the Family Day was dinner to celebrate Hari Raya with KSDK members to strengthen relationship among the KSDK members. The dinner was then followed with lucky draw. It became a much anticipated occasion. All attending members had the opportunity to win great prizes. The dinner ended with colourful fireworks show. Breakfast was served the following morning, at 7 a.m., and it ended at precisely 9 a.m. In conclusion, KSDK Family Day was very vibrant and all the attending members and their families gave a warm welcome. Hopefully, this event will make members' and families' relationship stronger. Thank you and congratulations to the organising committee for the memorable event!

## ILP Mersing Celebrated Eid Fitr

by : Muhammad Bazli Ammar bin Mahayudin

On May 11, 2023 (Thursday), Institut Latihan Perindustrian Mersing celebrated Hari Raya institute level in Dewan Besar, which involved all ILP Mersing students and staff. It was a day for the ILP Mersing community to gain an insight into one of the biggest celebrated festivals in Malaysia. Students and staff looked fabulous donning their traditional Malay clothing. This special event, hosted each year, strengthens the relationship among the ILP Mersing community. Various activities were carried out during the celebration such as karaoke and award giving ceremony. Prior to the celebration, all students were asked to make a Hari Raya video to be shown in the hall. In addition, various food were also served, including nasi minyak, red-cooked chicken and vegetable dalca as well as confectionary brought by all the students and staff to eat. Finally, the event is concluded to be a success and the objectives of the programme were achievable.

# Let's Read Together for 10 Minutes

by : Razi Hamizan bin Muhammad Geoffrey

On 18 May 2023, Thursday, the Resource Centre of Institut Latihan Perindustrian Mersing in conjunction with the national programme held Let's Read Together for 10 Minutes. This initiative aimed to encourage reading among ILP Mersing community. It started at 10.00 a.m. and lasted for 10 minutes on that particular day as a representation of everyone's dedication to a lifelong love of reading, and goes on with a daily 10-minute reading exercise. This has been an annual programme by the National Library of Malaysia to commemorate World Book and Copyright Day and to encourage reading among Malaysians. This reading programme allowed ILP Mersing community to read for 10 minutes while encouraging them to read books more frequently. It is hoped that this programme inculcates reading habit among ILP Mersing.

# COPTPA Question Development Advisory Service

by : Muhammad Bazli Ammar bin Mahayudin

From 16 to 17 May 2023, Tuesday & Wednesday, the Development Advisory Service Session of Skills Assessment Questions based on COPTPA lasted for two days involving 45 Institut Latihan Perindustrian Mersing Vocational Training Officers. The officers were given exposure and training regarding the Test Specification Table Format (JSU) and the latest format for the development of theoretical and practical evaluation questions based on COPTPA. The two speakers who were given the responsibility of conducting the session were Miss Siti Rom binti Darman and Madam Rohaizah binti Mohamad Taain @ Tayen from Job Standards Division and Curriculum TVET Skills Development Department (JPK), Cyberjaya. Hopefully, this session can contribute to the formulation of quality skills training questions and meet the criteria-based COPTPA to produce skilled students.

# world skills Malaysia Belia

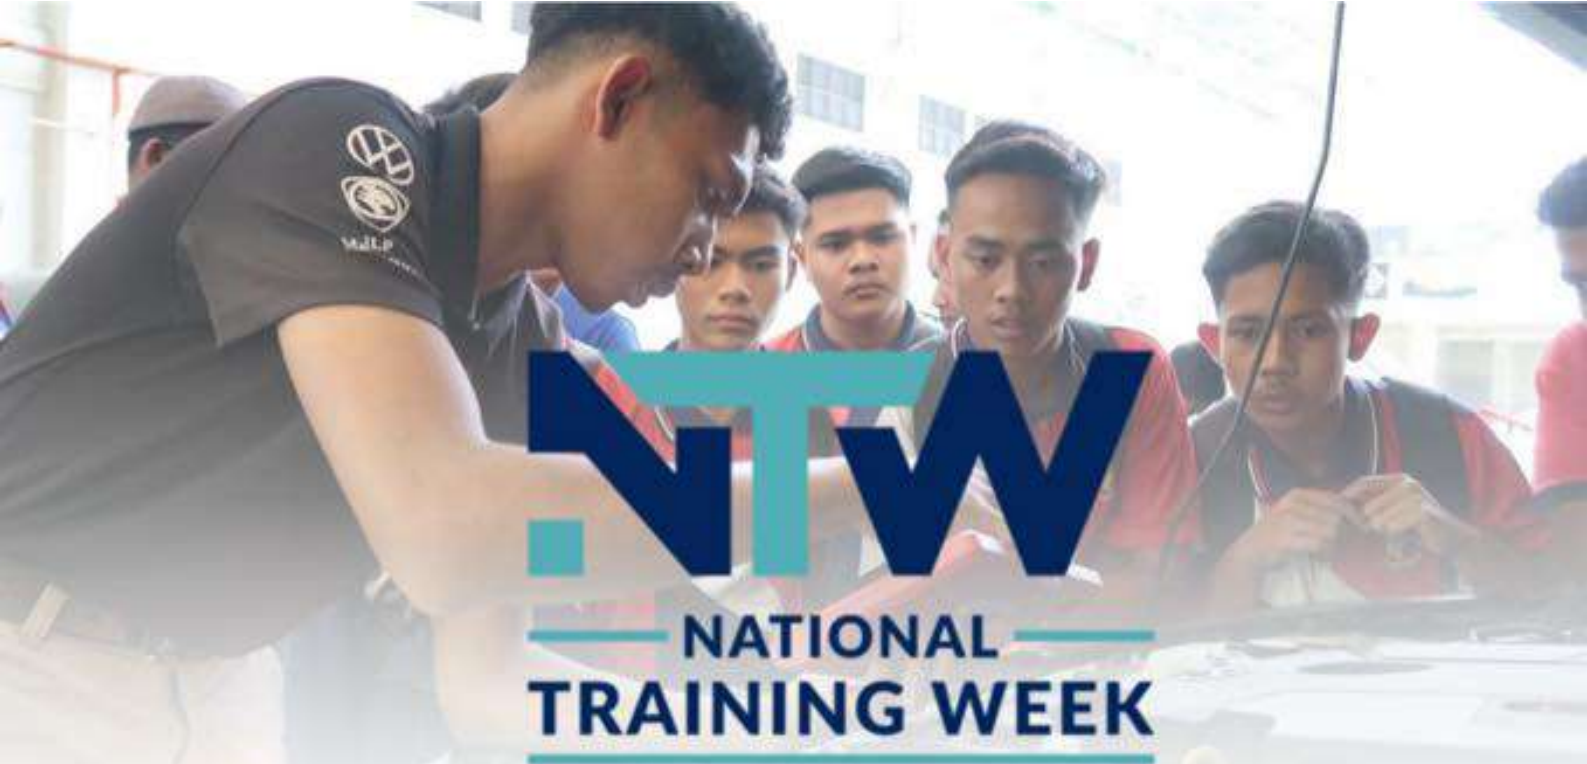

by : Muhammad Hazim Fahmi bin Ariffin

The WSMB competition is a national level skills competition organised annually to recognise youths and skilled workers who possess exceptional skills. This competition is open to youth aged 21 years and below (except for certain skills areas which only available for youths 23 years old and below). This competition aims to improve skills of manpower in Malaysia. In addition, the competition aims to increase awareness to the people about the importance of skills to the development of Malaysia.

Hence, on May 21 to 24 2023 the Refrigeration & Air conditioning technology participated in the Malaysia Youth WorldSkills (WSMB) competition. The team was represented by Muhammad Farid bin Rafee and Mohammad Farid bin Mohd Yunos together with their trainers, Mr. Muhammad Farid bin Ariff and Mr. Shahrizan bin Musa. The competition took place in Akademi Binaan Malaysia Wilayah Utara (Sintok).

The Welding technology team followed the RAC technology team, who had their finale on 24 to 25 May 2023 in the same place. The team earlier passed the screening stage and was announced to the final. The team was represented by Mohamad Afiq bin Mohd Azmi and Muhammad Haziq bin Tujana alongside with their trainers, Mr. Sani bin Sulaiman, Mr. Norisam bin Abu and Mr. Fahmin bin Mohd. Overall, both teams did their best to showcase their potential and bring back victory for Institut Latihan Perindustrian Mersing. We wish the best of luck to both teams. Not to forget, congratulations to all participants and trainers for their efforts reaching to this stage. Kudos!

# NTW

## NATIONAL TRAINING WEEK

### MERSING INDUSTRIAL TRAINING INSTITUTE

by : Jaazli bin Ahmad

The National Training Week (NTW) happened from May 22 to 28 and aimed to train Malaysians for free, especially in a wide range of topics and skills. The NTW is a week of nationwide training events organised by the Human Resources Ministry. Minister V. Sivakumar said the NTW would feature government ministries, agencies, industry players, individuals, industry associations, academia, and training providers, including Institut Latihan Perindustrian Mersing.

ILP Mersing offered several courses throughout all the programmes available in the institute including Welding, Automotive, Electrical, Telecommunication as well as Refrigeration & Air Conditioning Technology.

The NTW was carried out by the instructors in ILP Mersing, bringing together organisations and people from various backgrounds and industries for training and development. It benefited participants in many ways, as skill training will become more challenging in the next 30 years with technological changes.

Previously, skill training was done conventionally, but everything has changed in the demand and supply of workers due to the Covid-19 pandemic. Employers are now highly aware of the importance of training and human capital development to maintain employees' skills. All in all, the NTW was concluded as a success. Kudos to all the trainers and participants!

by : Muhammad Farid bin Mohd Rafee

On Saturday, 27 May 2023, General Subject Study alongside BKKL has organised the 2023 Hunch Hunt Competition. A total of 40 students who formed 10 groups representing each workshop participated in the competition assisted by 12 students from the Discovery Creative Council.

This competition was officiated by the Director of Mersing Industrial Training Institute, Ts. Syahrull Nizam bin Haji Perdan accompanied by the Assistant Director of BPPL, Puan Zuraidah binti Zainol. Also present to make the programme successful was the Head of the Telecommunications Division, Mr. Farid bin Nordin, together with Mr. Mohd Gadaffi bin Abdul Khalid. The Hunch Hunt 2023 competition is organized with the aim of developing students' knowledge and potential in general subjects including Mathematics, Islamic Education and English to be applied in TVET studies.

Overall, the programme has run smoothly as planned. Congratulations to all the participants, the organisers, BKKL, BPPL, BPSM and fellow sponsors who contributed to the programme. Here are the results of the winner:

**Champion:**  
Refrigeration & Air Conditioning  
Technology Semester 4

**Runner Up:**  
Electrical Technology Semester 4

**Third:**  
Automotive Technology  
Semester 4
